ERV SESSION PROCEDURES REPORT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CONTROL NUMBER: 8713

NICKNAME: None

DATE OF SESSION: 19 Oct 87

TARGET COUNTRY: Unknown

REFERENCES: None

SESSION NUMBER: 02

DATE OF REPORT: 21 Oct 87

MISSION STATUS: Continuing

TECHNIQUE UTILIZED: ERV

SOURCE IDENTIFIER: 079

1. (S/NF/SK) INTERVIEWER TASKING: This is the second session of a new project conducted utilizing this Source. Specifically the Interviewer is to task the Remote Viewing Source to provide data on a specific site to include the general external configurations purposes of any structures and objects at the site and data pertaining to the development and utilization of materials/objects at this site. In this session the Interviewer was further told to emphasize the three major items of interest provided in the actual tasking: the nature, purpose and extant of activity at this site. The Interviewer has not been made cognizant of the true nature of this site. The Interviewer utilized the encrypted coordinate of "14752/1213," which is a departure from accepted protocols of two six digit coordinates. There were no indications that shortened coordinates had any noticeable affect on Source's performance in this session or the previous session and as before, She was able to quickly adapt to this rather small departure from past procedures.

2. (S/NF/SK) SOURCE TASKING: Source was specifically told that this "will be a continuation of the target you worked on two weeks ago. During that session you told me about a large structure with men working in different portions of the structure. This structure will be our target for this session." Source was not provided any further cues or descriptive data prior to this session. This session was conducted utilizing Extended Remote Viewing (ERV) protocols in its entirety.

3. (S/NF/SK) INCLEMENCIES: There were no reportable incidents or inclemencies which may have influenced the data provided by Source during this session. It should be noted however, that Source is currently undergoing a comprehensive program of training in which She

is being taught to utilize the Coordinate Remote Viewing protocols. Although the effect of this training is barely negligible during Her subsequent ERV session, there are some effects none the less. Specifically, Source answers and descriptions while on target have tended to become less flowing and spontaneous consisting of more one or two word answers. This is in direct contrast to the typical ERV descriptive passage which tends to ramble on with numerous references not only to the target but to the surrounding environment. As a result, the Interviewer is experiencing some minor difficulties in attempting to "force" the Source to be more spontaneous and descriptive in Her replies. Experience with other Remote Viewer who are already cross-trained would seem to indicate that this is a temporary shortcoming which will resolve itself when this Source becomes more confident in Her ability to function in both technologies.

4. (S/NF/SK) SUMMARY: Source furnished the attached summary which was prepared following the session and submitted to the Interviewer within twenty four hours following the session. The completeness of the typewritten summary has been compared to the Interviewer's notes and all omissions, changes, and/or corrections have been verified as acceptable by the Interviewer. The information provided in the summary was found to be a complete accounting of the data provided by the Source during the session and did not require further modification, clarification or additions by the Interviewer.

5. (S/NF/SK) COMMENTS: Source's impressions and post-session summary continue to be somewhat confusing and erratic but far less so than in the initial session. The data provided by Her concerning Her impressions was far less ambiguous however there is still no single clearly definable thread of information that could have been exploited by the Interviewer. If Source's data is to be taken on face value alone, it would indicate a rather quiet and sedate research or planning facility with little activity other than the preparation of reports for a higher echelon of command. There was no indication of a central theme of research and no indication of any specific item of technology or development which was identified during the session. Source had one curious impression of young men being trained and armed within the facility and of other younger people being utilized as guides or assistants to direct visitors to the facility. Both of these impressions are ironic since they tend to resemble Source's

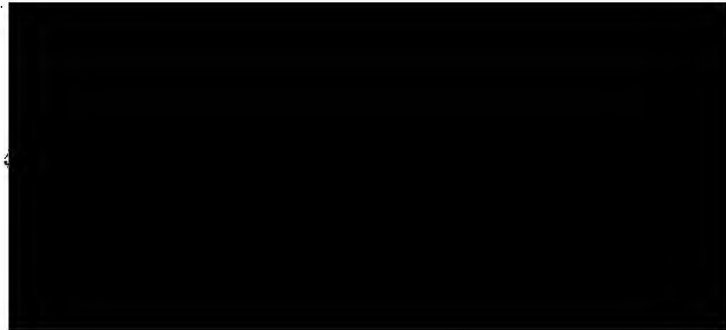

again that the Interviewer is unwitting as to the exact nature of the target site and therefore the existence of specific cues and relevant data may have gone unrecognized. In post session interviews Source commented that She felt drawn to the, "lower levels" of the multi-level structure to the area where the guides were located. She was unable to objectify the reasons for this propensity to report on this

Because that's where the target is

area. In future sessions an attempt will be made to objectify Her attraction to this area and to describe those items which seem to draw her to this region. SGFOIA3

DURING THIS SESSION, I FIRST SAW A LARGE, SQUARE, THICK, STRUCTURE THAT WAS POINTED. IT SEEMED AS THOUGH A SOFT CLOTH MATERIAL WAS HANGING FROM THE STRUCTURE BECAUSE I COULD SEE THE WIND BLOWING AND THIS SOFT CLOTH WAS FLAPPING IN THE WIND. THIS MIGHT BE A FLAG.

ALTHOUGH THE STRUCTURE WAS PLACED IN A BIG, WIDE, OPENED AREA ON LOW FLAT HILLS AND THERE WAS GREEN GRASS AND TREES, I COULD SEE SMALLER STRUCTURES NEARBY SPREAD OUT AND THERE WAS ROADS CIRCLING THIS WHOLE AREA THAT BRINGS YOU TO AND FROM THE STRUCTURES. THERE ARE PARKING SPACES NEARBY.

I COULD SEE MEN AND WOMEN WALKING AND TALKING OUTSIDE AND THIS WAS A BUSINESS AREA.

BEHIND THE STRUCTURE, I COULD SEE MEN WORKING AND BEING CONCERNED WITH THE STORAGE OF BIG OBJECTS. THEY WERE CONCERNED WITH TRACKING DOWN, ACCOUNTING FOR, AND COLLECTING LARGE OBJECTS. THIS AREA WAS SPACIOUS AND IT WAS BUSY.

AS I ENTERED THE LARGE STRUCTURE, I COULD SEE FEMALES STANDING BEHIND A LARGE THICK COUNTER AND THEY HELPED PEOPLE WHO ENTERED. THEY GUIDED THE WAY AND POINTED THE WAY. THEY WERE DRESSED NICE. BEHIND THIS THICK COUNTER, I COULD SEE A CIRCULAR STAIRCASE THAT YOU CAN WALK UP TO A HIGHER FLOOR.

THERE WAS SECURITY IN ALL AREAS OF THE STRUCTURE. THERE WERE BIG, THICK, HIGH WALLS. IT LOOKED AS THOUGH WALLS WERE BEING BUILT. THIS WAS A NEW STRUCTURE OR ELSE NEW THINGS WERE

BEING ADDED TO GIVE THE FEELING THAT THIS STRUCTURE IS NEW. IT SEEMED AS THOUGH PEOPLE WERE PLACED IN SMALL CUBICLES OR SMALL BOX-LIKE AREAS TO WORK IN.

THE WORK HERE IS ON MANY DIFFERENT LEVELS AND I SENSED MANY DIFFERENT DIVISIONS. I SENSED MANY PAPERS. PEOPLE READ PAPERS, WRITE PAPER, AND STUDY PAPERS.

AT ONE LEVEL, I COULD SEE A YOUNGER MAN IN CHARGE OF OLDER MEN. THE WORK HERE WAS OF A TECHNICAL NATURE.

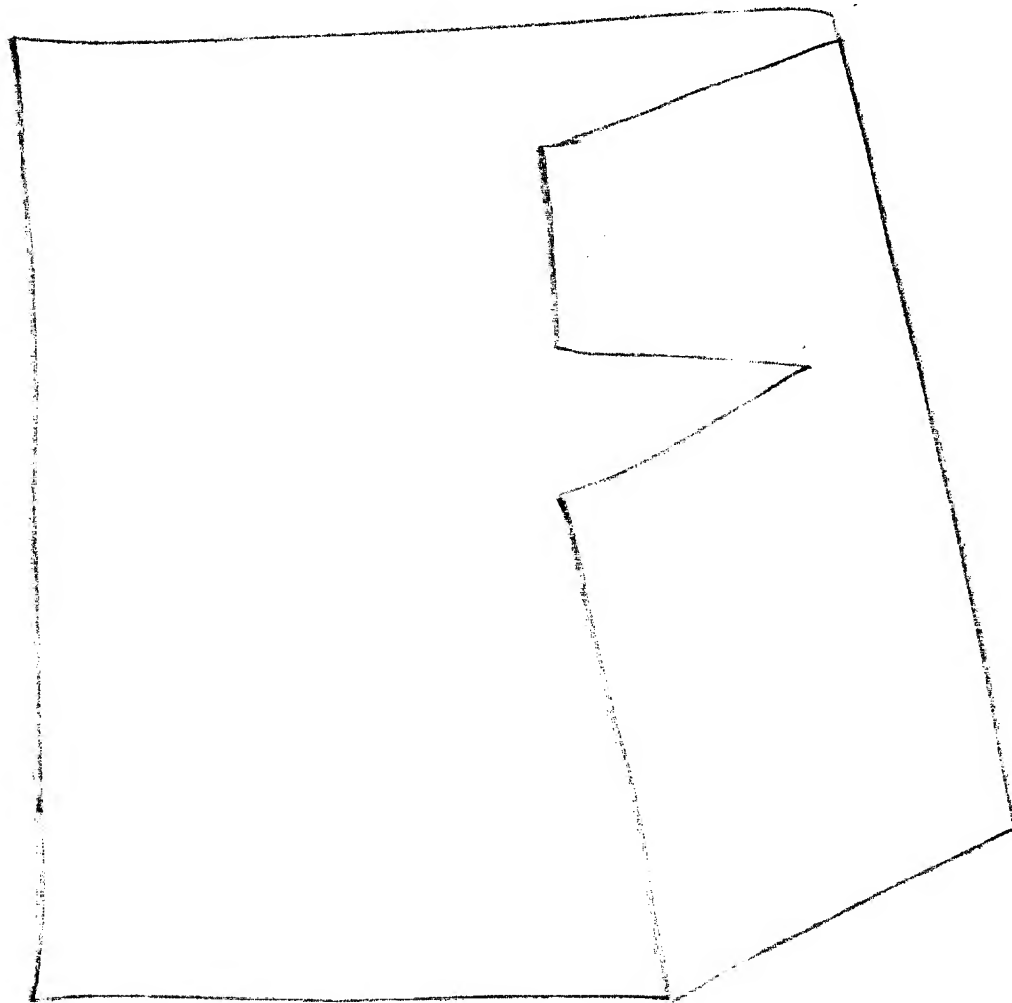

AT ANOTHER LEVEL, I COULD SEE YOUNGER PEOPLE WORKING IN SMALLER AREAS AND THEY WERE CONCERNED WITH MAPS AND ANALYZING INFORMATION.

ALL IN ALL, THE WORK HAD TO DO WITH RECEIVING INFORMATION, STUDYING INFORMATION, AND WRITING PAPERS.

THE PEOPLE WERE DRESSED VERY NICE. SOMETIMES I COULD SEE PEOPLE EATING. PEOPLE WHO WORKED HERE WERE SERIOUS. THE SURROUNDINGS WERE VERY NICE. THE FURNITURE WAS VERY EXPENSIVE.

I RECEIVED MANY DIFFERENT IMPRESSIONS HERE. EVEN THOUGH PEOPLE WERE WORKING FOR THE SAME GOAL, THERE IS DIFFERENT TYPES OF WORK GOING ON HERE. THERE ARE A LOT OF PEOPLE CONCERNED WITH DIFFERENT TYPES OF WORK.
